

Support Liver, Respiratory & Lung Health

NACSYCLEAR

**N-Acetyl L Cysteine 600 mg
Effervescent Tablets**

Helps in loosening thick mucus in the lungs, reduce the effect of Paracetamol overdose, support chronic bronchitis and improve liver conditions.

MECHANISM OF ACTION:

The mucolytic action is mediated by a reduction in the viscosity of bronchial mucus. This is explained by the depolymerisation with the disulfide bridges between the macromolecules in the mucus being opened. In addition, Acetylcysteine is a precursor of glutathione. Acetylcysteine is a derivative of the natural amino acid cysteine, which serves as a substrate for the synthesis of glutathione in the body. Apart from the fact that Acetylcysteine is able to normalise a state of glutathione depletion, it is able to conjugate with various toxic compounds.

DOSAGE :

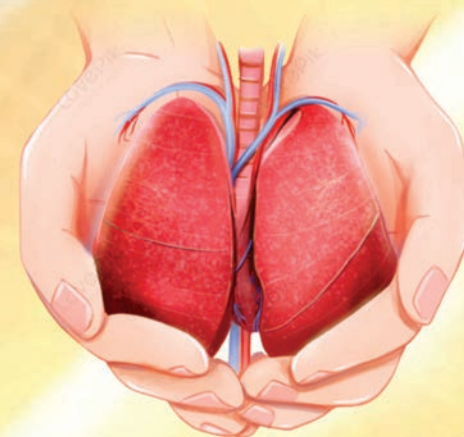

- A common dose of NAC is (600–1200) mg per day. However, people should discuss the use of NAC and precise dosage with a physician.

INDICATION:

- Promote Glutathione Production
- Helps to prevent Respiratory infections
- Support liver health
- Provide protection against lung damage
- Powerful Antioxidant

PSYCH GOL

PSYCH GOL is a bowel regulator. composed of Isabgol husk , Sonamukhi, Harad, Amaltas, Mulethi, Gulab dal, bael, Saunf churan .

BENEFITS OF KEY INGREDIENTS :

ISABGOL HUSK

Isabgol also known as psyllium husk is a dietary fibre that helps to increase stool and promote laxation. It is one of the most commonly used home remedies for constipation.

SONAMUKHI

It helps in managing constipation due to its laxative property. It contains certain constituents that help loosen the stool and speed up the bowel movement.

HARAD

Harad improves digestion by forming a healthy intestinal environment and by increasing the absorption of nutrients from the food. Harad also has Rechana (laxative) property that can aid in constipation.

AMALTAS :

It helps to manage constipation due to its laxative property.

MULETHI :

The presence of glycyrrhizin and its compound, carbenoxolone, makes mulethi a good remedy for constipation. Mulethi also works as a mild laxative, and helps bowel movements

GULAB DAL

It provides relief from constipation problems. Rose petals are high in fibre, so the problem of constipation can be avoided by eating it.

BAEL :

Bael is the best fruit for all digestive problems that have antibacterial, anti-fungal properties. It also has laxative properties that prevent constipation.

SAUNF CHURAN :

Fennel seeds might help control constipation. Fennel seeds are a rich source of dietary fibre which is important for proper functioning of the digestive system. The fibre increases the bulk of the stool and pushes the stool smoothly, thus relieving constipation

DOSAGE : As directed by the Physician

PSYCHO WISE

An Ayurvedic Medicine for Memory Enhancement.

Psycho wise is an Ayurvedic medicine , Composed of 16 completely natural ingredients which are Ayurvedically Proven to Aid in Memory enhancement and boost other bodily functions.

ALSO AVAILABLE- PSYCHOWISE SYRUP

Omega -3 fatty acid (DHA)
Syrup.

PSYCHOZYME

Digestive Enzyme With B- Complex Syrup

PSYCHOZYME is a combination of two digestive enzymes: Fungal diastase and Pepsin. This combination is primarily used for the treatment of various digestive disorders.

INDICATIONS:

- Anorexia (**An eating disorder**)
- Flatulence(**Gas**)
- Dyspepsia (**Discomfort or pain that occurs in the upper abdomen due to indigestion**)
- Eructation (**Burping**)
- Pancreatic insufficiency (**Inability to produce pancreatic enzymes**)

MECHANISM OF ACTION:

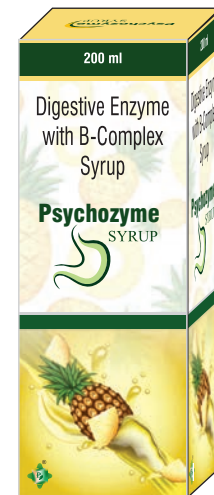

Fungal diastase is a starch hydrolysing enzyme that breaks down the complex carbohydrate (polysaccharides, i.e. starch) into simple carbohydrates (monosaccharides, i.e. simple sugar)& promotes digestion

Pepsin is a protein-digesting enzyme that helps break down large protein molecules into smaller units of protein (amino acids)

Thus together FUNGAL DIASTASE+PEPSIN aid digestive disorder and gastric problems.

DOSAGE:

Take 5 ml of Diastase + Pepsin, immediately after meals (for adults). For children, the dose should be half of the adult's dose.
